EDUCATION AND CERTIFICATES

B.Sc. in Computer Science - University of Ilorin, Ilorin (2015 – 2020).

Full Stack Web Development Certification - FreeCodeCamp (2018-2019).

PROFESSIONAL EXPERIENCE

1.

JOYCE MONINGHA ICT facility,
Brass, Bayelsa.

JOB POSITON: Web design resource personnel

It was a job I took in my NYSC year when I was in brass local government in bayelsa.

I Taught HTML, CSS and JAVASCRIPT to programming newbies, mostly indigenes of brass island and a couple of fellow NYSC youth corpers to help them kick-start their web development journey as a way of giving back to the community. The experience helped solidify my knowledge of fundamentals of computer programming. I had to work standalone, creating teaching resources, making researches, solving other people's code problems amongst other things. It was a stressful but fun experience.

Work Duration: Jul 2022 - Nov 2022 · (5 months)

Details: full time, on-site

2.

24th market street, Lagos.

JOB POSITON: Intern Frontend Developer

Fresh out of National Youth Service Corps(NYSC) as a computer science graduate, eager to get to work, I met a couple of enthusiastic web developers and we connected and they explained to me how they are creating this new startup. the product was basically a social media app with ecommerce added functionality. The main business idea of the product was to solve the issue of buying and not getting your products and similar cases of fraud and all that. I think the idea of the product is really great. I worked on the forgot password sequence page and helped implement the functionality, helped with testing, helped create error 404 pages, helped setup some functionality concerning the API. Also learnt a new way of creating react app, working with PREACT, basically a faster version of REACTJS framework. Still here and still learning but looking for more fun and advanced fullstack opportunities.

Work Duration: Nov 2022 - current · (2 months) Details:

full time, remote.
